

RESEARCHER

WHAT ARE WE LOOKING FOR?

- Past experience conducting research projects;
- Familiarity with mixed-method approaches;
- Ability to conduct online scoping, literature or desk reviews;
- Strong reporting and writing skills; and
- Desirable: Well-developed research and analytical skills.

WHAT DO WE EXPECT FROM YOU?

To work closely with the team of Researchers and Program Evaluators to:

- To carry out original, high-level collaborative research with other team members;
- To collect and analyse data and drawing relevant conclusions in a team context;
- To prepare and deliver presentations to the team and at conferences;
- To prepare and write high-quality papers for submission to peer-reviewed journals and conference proceedings;
- To undertake comprehensive literature reviews as set out by GHMe team;
- To develop future research objectives and proposals as dictated by GHMe needs;
- To provide recommendations for the further refinement and development of our program based on the latest research; and
- Perform any other tasks necessary to ensure the GHMe program is based on the latest research.
