

# GLOBAL HEALTH MENTORSHIPS - MENTORS -

An online global, group based mentorship program connecting Students and Young Professionals (SYPs) with experienced professionals from different fields within Global Health

## FACTS ABOUT GHME

- Founded as a non-profit organization by the Swedish Network for International Health and the Global Health Next Generation Network in January 2015
- Facilitates **remote** participation
- Encourages out-of-the-box thinking through our **continuously updated curriculum** and support the launch of new solutions in the global health arena.
- **Meets goals:** 89.5% of participants indicated that the goals they had set at the beginning of their mentorship period had been met

## BEING A MENTOR

- Mentoring is considered an important skill to learn and can be transferred in your own career
- **Duration:** 5 consecutive months from 1 October 2021 to 28 February 2022
- **Commitment:** Approximately 5 hours of mentoring per month
- **Who are your SYPs:** 2-3 exceptional SYPs who expressed particular interest in your field of expertise
- **You receive:** A detailed Mentor Handbook, mentor training, monthly Modules and a graduation certificate

## TESTIMONIAL

I supervised a very talent group of SYPs. The program added significant scientific and professional values to my career in terms of technical, administrative and professional points of views. I would strongly recommend this program to the new generation who are enrolled in global health areas.

Dr Hamid Hussain, UAE, Mentor 2016
